

The purpose of this program is to educate the public on basic home security and improve safety to the residents of Prescott.

Citizens can request a security inspection of their residences and a member of the Citizens on Patrol will come out to complete a comprehensive inspection of the residence. This inspection will include locks, windows, doors and exterior areas of the residence.

Take the 5-Minute security survey, walk around your house and answer each question. If you have any **NO** answer checked off, call the Prescott Police Department Crime Prevention Team and schedule a **FREE** full house security survey. Call us at (928) 777-1967

YARD:
